

Transfer Articulation

Undergraduate and graduate semester credit hours earned at another college may be applied toward a degree or certificate program at CSC. The credit must have been earned in courses offered at a college or university that has been fully accredited within the Association of the Council on Postsecondary Accreditation. The Registrar's Office will make the determination of acceptance of any course to be accepted for transfer to CSC. The number of credit hours to be accepted and the applicability of such evaluated credit will also be determined at that time. Applicability of evaluated courses to a particular program at CSC is made by the academic division of the specific curriculum in accordance with the recommendations for transfer from the Office of the Registrar. Credit will be evaluated from each individual college transcript.

This information can also be found on page 55 of Connors State College's Academic Catalog.
